Job title	Control Room Operator
Training & Qualifications	<p>Current and valid training required:</p> <ul style="list-style-type: none"> • CoC - Officer of the Navigational Watch Unlimited (II/1) - STCW • ECDIS (Electronic Chart Display Info System) • GMDSS (Global Maritime Distress Safety System) • STCW Advanced Fire Fighting • STCW Basic Training (Personal Survival Techniques & Fire Prevention/ Fire Fighting) • STCW Proficiency in Survival Craft & Rescue Boats (Other than Fast Rescue Boats) • STCW Proficiency in Fast Rescue Boats • STCW Proficiency in Medical Care • Stability Theory (Stability 1) • Offshore Stability & Ballast Control (Stability 2) • Ballast Control Simulator Course (Stability 3 or 4) • Mandatory training for travel offshore, including: <ul style="list-style-type: none"> ○ OEUK Medical ○ Seafarer Medical <p>Offshore Survival (HUET EBS CAEBS)</p>
Experience	Minimum of 2 years' experience as Control Room Operator or equivalent role on an operational moored semi-submersible drilling vessel.
Job Summary	<p>A Control Room Operator is responsible for the safe and efficient operation of the Ballast Control Room, ensuring the unit's stability and integrity at all times.</p> <p>The role includes monitoring and adjusting ballast systems, maintaining draught, trim and heel, and carrying out stability calculations to ensure accurate management of all tank levels and associated systems. Continuous oversight of alarms and control systems is required, along with maintaining detailed logs, reports, and ensuring all control room equipment remains fully operational.</p> <p>In addition, the Control Room Operator manages offshore communications, including coordinating helicopter and vessel traffic, supporting POB reporting, and providing critical</p>

	<p>communication support during both routine operations and emergency situations. This includes initiating alarms, making announcements, and liaising with offshore personnel and external parties.</p> <p>The position requires maintaining a constant control room watch, supporting permit-to-work processes, and actively participating in safety systems and emergency drills. Compliance with Company policies and safety standards is essential, contributing to safe and effective operations.</p>
<p>Role Details</p>	<p>This position is based on one of our semi-submersible drilling rigs, the Borgland Dolphin.</p> <p>The contract in Spain is for 7 firm wells with an option to extend by a further 3 wells. This is followed by a direct continuation of work in the UK (currently under a Letter of Intent) that would see the Borgland Dolphin contracted through to October 2031.</p> <p>The offshore rotations for the Borgland Dolphin will be 28 day on/28 day off rotation, whilst in Spain and 21 day on/21 day off rotation in the UK.</p>
<p>How to Apply</p>	<p>If you have the required experience, training, and qualifications and are interested in this opportunity working both in Spain and UK waters, please submit your up-to-date CV and relevant certification to recruitment.marine@dolphindrilling.com clearly referencing the position applied for in the subject line of your email.</p> <p>The closing date for applications is 5th June 2026.</p>
