

Job title	Driller
Training & Qualifications	Current and valid training required: • Well Control Surface and Subsea – Level 3 Driller • Mandatory training for travel offshore, including: ○ OEUK Medical (or equivalent) ○ Offshore Survival (HUET EBS CAEBS)
Experience	Minimum of 2 years' experience as Driller on an operational semi-submersible drilling vessel. Maritime Hydraulics Ram Rig/DrillView experience is preferred.
Job Summary	The Driller is responsible for safely executing offshore drilling operations on a semi-submersible unit and supervising the drill crew under the direction of the Toolpusher. The role involves directing day-to-day drilling activities in line with the drilling programme, Company procedures, and client requirements, while ensuring well control, equipment readiness, and high standards of housekeeping. The Driller plays a key leadership role in health & safety, compliance, emergency response, and crew training, as well as maintaining accurate drilling reports, pipe tallies, and handover documentation to ensure continuity of operations and effective team performance.
Role Details	This position is based on one of our semi-submersible drilling rigs, the Borgland Dolphin. The contract in Spain is for 7 firm wells with an option to extend by a further 3 wells. This is followed by a direct continuation of work in the UK (currently under a Letter of Intent) that would see the Borgland Dolphin contracted through to October 2031. The offshore rotations for the Borgland Dolphin will be 28 day on/28 day off rotation, whilst in Spain and 21 day on/21 day off rotation in the UK.
How to Apply	If you have the required experience, training, and qualifications and are interested in this opportunity working both in Spain and

	UK waters, please submit your up-to-date CV and relevant certification to recruitment.drilling@dolphindrilling.com clearly referencing the position applied for in the subject line of your email. The closing date for applications is 14 August 2026.
