ROUGHNECK

ROLE DETAILS

Rig

PBLJ or Borgland Dolphin

Location

Spain & UK

Rotation (Spain)

28 days on /
28 days off

Rotation (UK)

21 days on /
21 days off

Contract

Permanent

TRAINING

Current and valid training required:

- Banksman & Slinger certification (OPITO)
- Mandatory training for travel offshore, including:
 - » OEUK Medical
 - » Emergency Response Team Medical
 - » Offshore Survival (HUET EBS CAEBS)

EXPERIENCE

Minimum of 1 year experience as Roughneck on an operational semi-submersible or drilling vessel.

JOB SUMMARY

The Roughneck supports offshore drilling operations on a semi-submersible rig under the direction of the Driller or Assistant Driller.

The role involves operating and maintaining rig floor and derrick equipment, carrying out routine maintenance and inspections, and assisting with drilling and tripping activities while strictly following well control, permit-to-work, and safety procedures.

The Roughneck is responsible for maintaining good housekeeping, checking the condition of tools, tongs, slips, and safety harnesses, and promptly reporting defects or incidents.

When working in the sack room, the role also includes assisting with drilling fluid mixing and mud system equipment.

A strong focus on teamwork, safety awareness, and participation in emergency response and safety meetings is essential.

RIG DETAILS

The Borgland Dolphin is currently operating in Spain and is expected to return to the UK next year. The Paul B. Loyd Jr. is currently operating within the UK Continental Shelf (UKCS).

If you have the required experience, training, and qualifications and are interested in this opportunity working both in Spain and UK waters, please submit your up-to-date CV and relevant certification to:
